

ANDROMEDA MULTI TEKNOTAMA

Company Profile

OUR PROFILE

PT Andromeda Multi Teknotama (AMTEK) is an information technology company with over six years of experience, serving both government and non-government clients since 2014.

Furthermore, AMTEK is an authorized partner of numerous technology and brand principals, both in hardware and software. This partnership boosts our confidence in achieving customer satisfaction in line with the company's vision and mission.

Vision Mission

Our Vision

.....

AMTEK brings out the world's best to your desk.

Through collaboration with world-class technology partners, we aim to deliver customer comfort and satisfaction directly to our clients' desks.

Our Mission

.....

- AMTEK is committed to responding to customer needs by delivering efficient and competitive technology solutions.
 - We strive to build mutually beneficial partnerships across the technology spectrum, from upstream to downstream, to achieve effective and efficient outcomes that meet customer expectations
 - Our goal is to provide the right service, tailored to the technology offered, to address and fulfill customer requests.
-

Smart Whiteboard

Smart Office

Huawei Ideahub

A sleek, contemporary, user-centric design featuring a slender, minimalist stand. The HUAWEI IdeaHub effortlessly blends into any space.

Highlights

BYOM

- Bring Your Own Meeting (BYOM) with seamless transfer from personal devices to HUAWEI IdeaHub S2.

Wi-Fi 6 for Direct Projection

- One-step projection using Wi-Fi Direct without the need for devices to share the same local area network (LAN).

Collaboration Unbounded

- Multi-Window and App Multiplier deliver an enriched office ecosystem.

Professional-Level 4K Video Camera

- 2 μm^2 ultra-large photosite size doubles the signal-to-noise ratio (SNR). Huawei-developed AI algorithm ensures true-to-life, natural clarity.

AI-powered Audio and Video

- Voice tracking, Auto-Framing, and acoustic baffle deliver immersive experience. 12-meter sound pickup, DNN-based de-reverberation, and AEC algorithm ensure clear voice from far away.

Intelligent Whiteboard

- Annotate on full screen in full color with an all-new toolbar. Writing is effortlessly smooth with intelligent recognition and ultra-low latency.

Wi-Fi 6

Leading into a fully wireless era with Gbit/s speeds

Wi-Fi 6 (802.11ax) offers four times the network bandwidth and user concurrency compared to Wi-Fi 5. By integrating 5G-powered antenna and algorithm technologies, it reduces network latency from 30 ms to just 10 ms, eliminating dizziness in VR/AR experiences, enabling wireless 4K HD conferences, and ensuring zero packet loss during AGV roaming. Accelerate enterprise digital transformation across industries with Wi-Fi 6.

Wireless Offices

- 4K/8K video collaboration
- > 100Mbps per person
- Easy deployment

Classrooms

- 4x AR/VR performance
- Real-time perception
- Simplified O&M

Retail

- Guaranteed ESL updates
- Zero configurations
- 30%+ increase in AGV capacity

Airports

- Full wireless service
- 4x concurrency
- Smart Radio

Wireless Cities

- Quick deployment
- 20%+ increase in coverage
- Seamless 5G & Wi-Fi 6 switching

Wi-Fi 6 Features

- Wi-Fi 6 products powered by Huawei 5G ensure the best business experience
- 10 Gbps and Beyond: Unique 16T16R antenna, fiber-like experience
- More Stable Coverage: Smart antenna, offering 20% wider coverage
- More Stable Applications: SmartRadio Dynamic Turbo, VR with no frame freezing
- More Stable Roaming: SmartRadio lossless roaming, ensuring service continuity
- 100 Mbps@Everywhere: AI-powered intelligent radio calibration, boosting performance by 58%

Enterprise Networking

Go digital faster with
Intelligent Cloud-Network.

What Is an Intelligent Cloud-Network?

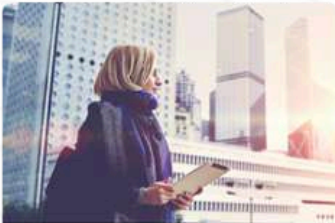

**Network
Digitalization**

**Network
Intelligence**

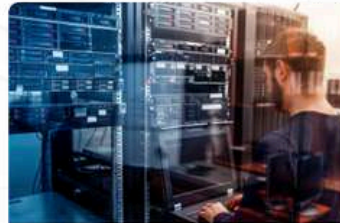

**Network as a
Service (NaaS)**

Campus Network Solution

Huawei's CloudCampus Solution visualizes every user's experience, in any application, and at any point in time, providing analysis of faults at their root and offering intelligent defense against threats.

Data Center Network Solution

A solution designed for building DCNs with lossless Ethernet, full-lifecycle automation, and network-wide intelligent O&M, maximizing computing power with new Ethernet capabilities.

WAN Solution

With innovative technologies such as SRv6, network slicing, and real-time service quality visualization, Huawei provides enterprise customers with experience-centric WAN solutions, accelerating enterprise cloudification and digital transformation.

Network Security Solution

Intelligent threat detection, threat response, and security O&M improve the threat prevention capabilities of enterprise networks and telecom infrastructure, increasing security O&M efficiency and reducing O&M costs.

Smart Data Center Facility

Instant Deployment, Modular Design,
Intelligent Management, High Scalability
"on one machine"

Space Saving

Integrating UPS, PDU, monitoring, and cooling systems into a single converged cabinet halves the installation space required.

Fast Development

All components in the integrated rack are prefabricated, preinstalled, and pre-commissioned before delivery.

Simple

One module, one data center, featuring a modular design, on-demand deployment, and flexible expansion.

Smart

Enables visualized management of space, power, cooling, and assets, increasing resource utilization by 20%, Reduces the energy consumption of the cooling system by 8–15%.

Reliable

visualization of the power supply chain, automated fault location, and automatic shutdown for proactive protection, ensuring 24/7 uninterrupted protection.

Fusionmodule 800

Fusionmodule 500

Huawei Cloud

Everything as a service

Innovative, Trustworthy, and Secure Products and Services

Elastic Cloud Server (ECS)

Get your own secure, scalable virtual servers in the cloud

Elastic IP (EIP)

Create highly available systems with static public IP addresses

RDS for MySQL

Power your LAMP stack with this popular, open-source database

Object Storage Service (OBS)

Take advantage of infinitely scalable, durable, and secure object storage

Cloud Backup and Recovery (CBR)

Centrally manage backups of your cloud and on-premises resources

Optical Character Recognition (OCR)

Detect and extract text from any image and convert the text into JSON format

Content Delivery Network (CDN)

Get content to users on this fast, scalable, and secure network

Cloud Container Engine (CCE)

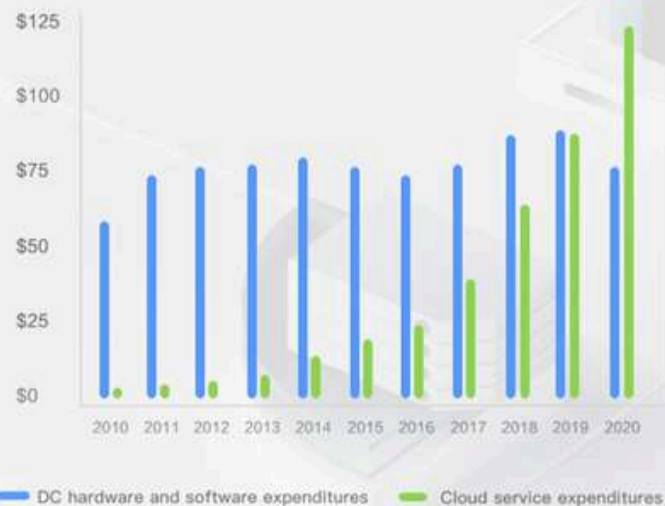

Experience enterprise-class, managed Kubernetes service

Digitalization: The Only Way Forward

GIV prediction: By 2030, cloud services will account for 87% of enterprise application expenditures, and AI computing will account for 7% of a company's total IT investment.

Security & Firewall (SANGFOR)

- **Sangfor Network Secure Firewall**

Sangfor Network Secure (previously known as NGAF) takes Next Generation Firewall technology to the next level to meet the evolving security needs of modern enterprises. Through market foresight and technical prowess, Sangfor Network Secure holds several “world’s first” titles.

- **Sangfor Omni-Command**

Revolutionize Your Cyber Defense with Intelligent XDR

Enter Sangfor Omni-Command is an Extended Detection and Response (XDR) solution designed to meet the challenges of today’s complex security landscape

- **Sangfor Endpoint Secure**

Extensive malware protection, The Future of Endpoint Security

- **Internet Access Gateway (IAG)**

Securely manage Internet access, Simplify User & Network Management

- **SASE Sangfor Access Secure**

Branch Offices & Remote Users

Cloud-based SASE for Branch Offices & Remote Users

- **Sangfor EasyConnect**

EasyConnect is a secure remote access solution that allows you to access Windows desktops and applications from any device or operating system. [Learn more!](#)

Solutions for Your Multi-Cloud Business

App Platform

Build new cloud native apps, modernize existing apps, and operate infrastructure that serves them all across any cloud.

Cloud Infrastructure

Create a consistent environment that simplifies app modernization and multi-cloud operations.

Networking

Accelerate modern app operations with network and security virtualization for WAN, data center and cloud.

Anywhere Workspace

Enable any employee to work anywhere, anytime with seamless employee experiences.

Security

Leverage your infrastructure across any app, any cloud and any device for intrinsic security at every layer.

Telco Cloud

Deliver any application, on any cloud, anywhere—from the core and the RAN to the edge and cloud.

VMware Cloud Solution

Unlock the value of any cloud and accelerate the delivery of modern applications with VMware Cloud.

VMware Virtual Cloud Network

Accelerate modern app operations with network and security virtualization for WAN, data center and cloud.

VMware Cloud Security Solutions

With connected security that delivers full visibility and frictionless operations, your apps and data are more secure with VMware, in any environment.

VMware Cloud Infrastructure

Run enterprise applications at scale. Invest in a cloud infrastructure platform that provides the optimal multi-cloud environment for every business app without complex code or configuration changes.

Adobe Creative Cloud for Teams

Designed for creativity. Built for business.

Build your brand and grow your business with the world's best creative apps and services that make working together better than ever.

What can Adobe Creative Cloud for teams do for your business?

Power your creativity.

Get everything you need to create content that elevates your brand.

20+ creative apps

Get Adobe Photoshop, Illustrator, InDesign, Premiere Pro, After Effects, XD, and more.

Productivity tools

Convert, edit, and collaborate on digital documents with the power of Acrobat and PDF.

Everywhere access

Capture ideas on mobile, refine them on desktop, and present work on tablets and smartphones.

Creative resources

Get free Adobe fonts and stock assets, unlimited Adobe Talent job postings, Behance inspiration, and more.

Work better as a team.

Collaborate efficiently with integrated tools and services made just for teams.

Team libraries

Share assets across your team and control editing access to keep branding consistent.

Easy collaboration

Share previews for feedback, edit together, and restore past versions with 180-day histories.

Business app integration

Be more productive with Microsoft Power Automate, Microsoft Teams, Confluence, Slack, and more.

Auto-save to the cloud

Cloud documents and libraries are auto-saved to cloud storage so you can pick up wherever you left off.

Ensure company control.

Manage your plan, apps, and assets with easy admin features.

Flexible license management

Purchase, deploy, and manage licenses from a web-based Admin Console.

Simplified billing

Consolidate all plans under one contract for easy budgeting.

Company asset protection

Protect creative assets and libraries by keeping them within the business.

Help when you need it

Get advanced tech support and 1:1 sessions with product experts to master new creative skills.

Bitdefender Antivirus

Enterprise Cybersecurity Built for Resilience

Bitdefender is a cybersecurity leader delivering best-in-class threat prevention, detection, and response solutions worldwide.

Bitdefender is Built for Resilience

Unified Prevention, Detection & Response Platform

Works across endpoints, productivity apps, identities, networks, and hybrid cloud workloads with high efficacy, multiple security functions and easy administration.

Unmatched Attack Prevention

Bitdefender prevention technologies and machine-learning models identify and stop more attacks; we don't just detect & respond after the fact.

Extended Detection and Response (XDR)

Combines advanced threat protection with out-of-the-box analytics and rich security context for correlation of disparate alerts, quick triage of incidents and attack containment through automated and guided response.

Experts You Can Hold Accountable

Our Security Operations Center (SOC) works for you 24x7 – attackers never sleep and neither do we; if we call you at 3 AM, we'll have an action plan, not just a ticket.

EDIUS 9/X/11

Editing software for professionals and ambitious video enthusiasts

Why Edius?

Outstanding file format support

EDIUS 11 supports more file formats than any other NLE. With exceptional format compatibility, including Grass Valley's 10-bit-HQX Codec and Avid DNxHD/DNxHR, it enables real-time editing, scaling, format conversion, and mixing of diverse formats on a single timeline.

EDIUS 11 is free from subscription fees and time-limitations

When you purchase EDIUS 11, you get a permanent license with free updates and no subscription fees, allowing indefinite use even after major releases. Activation is limited to one PC at a time, but you can switch twice a week or get a second license for personal use attached to the same eID.

3rd Party Plug-ins for EDIUS

Enhance your EDIUS experience with powerful 64-bit video and audio (VST) plug-ins. Integrate seamlessly as transitions, filters, and titling tools, unlocking new creativity and functionality in your workflow.
